A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/28/06 has been entered.

EXAMINER'S AMENDMENT

The Examiner initiated a telephone call to inform the Applicant, Mr. Kevin R. Perkins (Reg. # 36,634) to inquire whether the Applicant is willing to include the "Copy-On-Demand process" feature taught in the specification into the claims to put claims in condition for allowance. The Examiner stated that Patent Application No. 10/679,662 now the Patent No. 7,188,223 B1 (with a common assignee and inventors) included similar limitations that is not taught in the prior art. The Examiner also pointed out that that there is a minor typographical error on page 12, line 8 of specification (e.g., Fig. 10 must be changed to Fig. 3). The Applicant agreed and authorized the Examiner to make the changes in an examiner's amendment. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Please amend the application as follows:

Specification

Page 12, line 8 replace “a computer-executable medium 150 as shown in Fig. 10” with --a computer-executable medium 150 as shown in Fig. 3--

Claims

Claim 1:

Line 8, after “source,” insert --in a copy-on-demand process,--

Claim 8:

Line 7, replace “medium” with --storage medium--

Line 10, after “source” insert --in a copy-on-demand process,--

Claim 15:

Line 9, after “configured” insert --to cause--

Line 11, after “source” insert --in a copy-on-demand process,--

REASONS FOR ALLOWANCE

The following are the Examiner’s statements of reasons for allowance:

The prior art does not teach or suggest the combination and relationship between these features:

- 1. The primary reasons for allowance of claims 1-2, 6-9,13-16, and 20-21 in the instant application is the combination with the inclusion of the following limitations:*

restoring the source by copying data content from the clone to overwrite the data content of the source in a copy-on-demand process, while allowing host reads and writes to the Source during the restoring step, said copying being determined by a clone delta map, used to track extents of the clone that are different between the clone and the source, and a protected restore map, used to track extents of the source that are modified during the restoring step, when an indication is set in the clone delta map and not set in the protected restore map; preserving the data content of the clone by not allowing it to be overwritten by host writes during the restoring step

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to HASHEM FARROKH whose telephone number is (571)272-4193. The examiner can normally be reached on 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kevin Ellis can be reached on (571)272-4205. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
